About

Global Covid Summit is the product of an international alliance of doctors and scientists, committed to speaking truth to power about Covid pandemic research and treatment.

Thousands have died from Covid as a result of being denied life-saving early treatment. The Declaration is a battle cry from physicians who are daily fighting for the right to treat their patients, and the right of patients to receive those treatments - without fear of interference, retribution or censorship by government, pharmacies, pharmaceutical corporations, and big tech. We demand that these groups step aside and honor the sanctity and integrity of the patient-physician relationship, the fundamental maxim "First Do No Harm", and the freedom of patients and physicians to make informed medical decisions. Lives depend on it.
